Kompass : Triglav - Lake Bled - Julian Alps (Slovenia) 1:25,000 Hiking Map, laminated, GPS-precise KOMPASS before purchasing it in order to gage whether or not it would be worth my time, and all praised Triglav - Lake Bled - Julian Alps (Slovenia) 1:25,000 Hiking Map, laminated, GPS-precise KOMPASS:

2 of 2 people found the following review helpful. Tons of detail, but too bad it's in German! By JP in OKC My fault - I didn't realize this is all in German when I bought it! Otherwise, if you can read German, it has TONS of information on it. Much more than any map I have seen produced in the USA.

Triglav - Lake Bled - Julian Alps (Slovenia) 1:25,000 Hiking Map, laminated, GPS-precise KOMPASS This hiking map, at incredible street-level scale of 1:25,000 (1 inch = 700 yards) is printed on sturdy, laminated, thus waterproof and tear-resistant paper. Sheet size 109 x 74 cm / 43 x 29 in. The map is contoured (contour interval 40 m) with additional shading and graphic relief to provide a more detailed picture of the terrain, vegetation and / or land use. Local and long-distance waymarked footpaths are highlighted, including climbing trails, cycling routes, mountain bike trails, and ski routes. The map indicates various types of accommodation (selected inns and hotels, youth hostels, campsites, mountain refuges), as well as recreational facilities, places of interest, etc. Also shown is access by public

transport with bus stops and Park+Ride facilities. The map has a UTM grid for GPS users. The map comes in a protective plastic pouch and with a booklet describing the area and various hiking routes, in German and Italian. The booklet also includes a map centered on Lake Bled at 1:40,000, a little further to the east of the main map area. The booklet is not essential to use the map since the map is self-explanatory and its legend is in English. Kompass (based in Austria) is Europe's largest publisher of walking maps.
