**Nancy Judson : Tripbuilder Florence** before purchasing it in order to gage whether or not it would be worth my time, and all praised Tripbuilder Florence:

Best color-coded, mapped and annotated pocket guide ever!By A CustomerDuring our first trip to Italy, our tour package included three Tripbuilder books --- Rome, Venice and Florence. These turned out

to be the best guides ever! Although we had Fodor's guide to Italy, we found that we relied on the Tripbuilder books a lot more for very simple reasons: the colorful and detailed map, guide to public transportation, color-coded keys to areas of interest, the short but intriguing historical commentaries on each entry, tips for tourists, and the perfect booklet size to put in a pocket or purse. The Tripbuilder series was so helpful during our trip that we have since ordered additional books for our next trip to London, Paris and Amsterdam. We sincerely hope that they will keep adding to this series as we make our way through Europe because we plan to collect ALL of them.P.S. I lent one of my books to a friend who visited Florence after we did. She loved the book as well, and told me that it certainly made her trip so much more significant and enjoyable because of the great information in the book.Kudos!

Examine world class art hidden in a church cloister, picnic at one of the loveliest locales in the city with the finest of views, and follow the footsteps of the famous Medici clan. It's all in the Florence TripBuilder! Informative sight descriptions unearth little-known anecdotes, unique facts, and practical advice (like when to go, how to get there and what it will cost). Color coding tells you whether a sight is a best museum, hidden treasure, historic landmark, superior shopping spot, a picture perfect piazza or a great place to take the kids. DETAILED FOLD-OUT MAP shows exactly where each color-coded sight is located. Special Suggestions to make your trip even more memorable. Lightweight, easy to carry and a great value.
