Mary McVey Gill, Brenda Wegmann : Tune Up Your Spanish with MP3 Disc before purchasing it in order to gage whether or not it would be worth my time, and all praised Tune Up Your Spanish with MP3 Disc:

2 of 2 people found the following review helpful. Tune Up TimeBy Christina KellyWhile this book may seem boring and useless to those that have had Spanish classes, especially classes past that of the basic standard, if you take a deeper look, you can learn much. I can say that because I am currently seeking a degree in Spanish Interpreting/Translating. This book, which is being used as a text book for one class, allows you a deeper and more

meaningful look into the ways of speaking Spanish. It's not just simple vocabulary printed in black and white with what to say and what that means; it actually gives you different ways of saying things in regards to what you want to say and who you are addressing. You are also given a bit of background into the Spanish language and the people of Hispanic descent. You learn about so much more than just what to say in order to get by if you find yourself in a Spanish speaking country. What is a Horchata? Why do people in Spain throw tomatoes at each other? These are only a couple of questions that the book will answer. These are questions that a person would not normally learn if taking a basic class for Spanish. You are taught how to say it in the most basic of ways so as to be understood in any Spanish speaking country; however, you are not taught the meaning behind certain things. This book will give you an idea and introduce you to the hidden meanings and gestures that occur among people of the Hispanic world. Regardless of your Spanish speaking abilities, take time to order and read this book. If nothing else, you'll have a little insight and know how in the life of Latinos and Hispanics. Enjoy!

0 of 0 people found the following review helpful. I love the CD and the book
By Dhouston I love the CD and the book, you able to hear the pronunciation and see it written out in the book. It is the best way to learn a language I think!
2 of 2 people found the following review helpful. Excellent
By PAUL PHILIBERT Most practical book for people like me who already know some Spanish. It is very user friendly, builds confidence gradually.

Turn your rusty Spanish language skills into polished conversation confidence Tune Up Your Spanish offers you an entertaining and practical way to hone your Spanish-language conversation skills. This book is structured around numerous key areas for improvement, covering everything from tricky grammatical structures to gestures, slang, and humor. In each area, key phrases are presented in "Top Ten" lists, including everyday expressions for filling pauses, icebreakers, and more. This book is excellent for brushing up on the Spanish you studied in high school or college. The accompanying MP3 disk contains an engaging 70-minute program for learning key expressions from the book. It includes mp3 recordings of sixty Top 10 lists, organized for each access and reference on your iPod or mp3 player. This disk may not play on older, stand-alone CD players.

About the Author Mary McVey Gill and Brenda Wegmann are experienced authors of Spanish and ESL language learning materials.
