**Sunflower Books : Turkey Coast (Antalya to Demre) Sunflower Complete Series** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Turkey Coast (Antalya to Demre) Sunflower Complete Series:

Combines the best features of a Sunflower walking guide with all the detail you would expect in a hefty general guide. All the authors have been visiting Turkey for many years, writing general and walking guides. They guide you through the most beautiful landscapes of the region. There is no other specific guide for this very popular area around Antalya airport. Another plus is that the book covers relevant sections of the famous Lycian Way, but these sections are described as day walks, not trekking routes. Coverage: Getting there and getting about Recommended accommodation and restaurants (with prices) Practicalities A-Z History 15-20 main walks with many variations, all with large-scale topo maps Fold-out area maps Detailed town plans showing locations of all sights, hotels and restaurants Plans of ancient sites Many 'feature' panels. Sunflower has been named a Which? Recommended Provider of Guidebooks
