Could be betterBy jauphrwaSome distance infos missing or wrong (not good when on bicycle tour).Scale 1:900.000 is only for the East part of Turkey (to Ankara). From Ankara longitude it is 1:2.000.000!!!There are some mistakes between "road without surface" and "other road" : we were on non-asphalted roads that were supposed to be asphalted and vice-versa.Lines for railway or road without surface are too similar.But, it was good to had it as a gift from Cartographia! We could have a general vision of our trip in Turkey. Next step, Iran!

Folded road and travel map in color. Scale 1:900,000. Distinguishes roads ranging from motorways to non-surfaced roads.
