Just like aged cheese and wine this book brings even more depth and flavor than the ones before it. Victoria delves deeply into the past, present and future not only of her adopted home in southern Spain but also of her own life and family. Like all our lives there are gloriously jubilant moments alongside those of deep sadness. The author treats both with love and respect and manages, as in her

other works, to make the reader both cry and laugh along with her. As always, each chapter is accompanied with a tantalizing recipe that I am anxious to try myself. An addition to this book is a brilliant original painting evoking fond memories of my own experiences in Spain. The cover art is so addictive that while I already own Kindle versions of each book I plan on buying the soft cover editions to proudly enjoy on my book shelves. Thank you so much for again sharing a glimpse of your very special life with all of your readers. Did you haven't yet read any of these books be prepared to not only enjoy this story but be compelled to read the earlier books as well. 0 of 0 people found the following review helpful. Love All in this Series By Joann R. Greene I've followed this series by Victoria Tweed and have enjoyed each book. Some of them had me laughing out loud in each chapter and some just chuckling after a few chapters. This book #4 falls in the latter part for me. It is still a good read though. Living in a foreign country was something that I wanted to do when I was younger and now that dream is gone, so I believe that I enjoy this series more than most is because I am living vicariously through her books. It is great to be back in La Hoyo and among the villagers. I always find it amusing to hear about the hens and their habits. I believe this is the last in the series and sure hope she is working on a new one! 0 of 0 people found the following review helpful. Another "Old Fools" book and more enjoyment. By harriet feagin Another "Old Fools" book and more enjoyment. Victoria makes the everyday life in Spain so interesting. The characters in the village become your own neighbors and friends. I was deeply saddened when a character died because I had met him in the first book and Victoria Tweed made him come to life for me. She and Joe did what a lot of us in retirement age cannot do but would love to do. I can live vicariously through her books. The books are humorous and heartwarming as well an engaging.

#4 in the bestselling Old Fools series When Victoria and Joe return to their Spanish mountain village, they are still reeling from their year in the Middle East. Sighing with relief, they prepare to settle down to a peaceful life with the familiar characters of the village. But life refuses to stand still, even in tiny El Hoyo. Lola Ufarte's behaviour surprises nobody, but when a millionaire becomes a neighbour, the village turns into a battleground. Can Victoria and Joe help restore peace to the village?

About the Author Victoria Tweed is a New York Times bestselling author. In 2004 she nagged poor, long-suffering Joe into leaving Britain and relocating to a tiny, remote mountain village in Andalucía, where they became reluctant chicken farmers and owned the most dangerous cockerel in Spain.
