**Kartografija Ukraine : Ukraine 1:1,250,000 Road Map** before purchasing it in order to gage whether or not it would be worth my time, and all praised Ukraine 1:1,250,000 Road Map:

An authentic, double sided, Ukrainian-made detailed road map in the Ukrainian language (i.e. Cyrillic). Thus the map shows the country as it really is. Legend is in Ukrainian and English. On the back side, there is an invaluable set of inset maps of 25 cities and towns.
