More than just a travel guideBy Tree BeeAndrew Evans blends a wealth of information with a strong readable narrative which has a wonderful conversational tone. 'Ukraine' delivers far more than a straightforward guide. There's a lengthy section on the country's history, which is fascinating and before the reader even begins to read about the diverse places to visit, there are sections on geography, climate, politics, culture and more!But even if the reader cuts to the chase and reads, say, the chapter on Vinnitsya, then the background is still delivered and I have to say my appetite was whetted for this city.A visitor to Ukraine might plan to stay in Ukraine for 10 days, or 2 weeks, but after reading this guide may also wish to visit the following year. Mr Evans draws out the magic of Ukraine east to west and north to south.This is an educational read, and a 5 star travel book.
