Cartographia : Ukraine - Belorussia - Russia Map (European Road Maps) (Hungarian Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Ukraine - Belorussia - Russia Map (European Road Maps) (Hungarian Edition):

1 of 1 people found the following review helpful. Review of Ukraine, Belorussia Russia mapsBy J. HeiskellBeing interested in Russia and it's cities, I ordered this just to try to gain a little insight into the geography of the country. This proved very interesting and met my expectations of doing that.

Excellent travel map of the countries and substantial portions of their neighbors is printed on one side. Mountainous areas in shaded relief; lowlands in green tint. Reverse side contains index of place names. Distinguishes roads of all types, from motorways to minor routes. Also: airports, railways, car ferries; monuments; fortresses, castles, and ruins; hotels and campsites; isolated houses; caves. Scale 1:2,000,000. Distances in kilometers.
