Ukraine Moldova 1:1,000,000 Road Map, double-sided, 2007 edition Ukraine with Moldova on a double-sided detailed map at scale 1:1,000,000 (1 inch = 16 miles) in the Ukrainian language (i.e. Cyrillic). Therefore, the map shows the country as it really is. Road network includes small local roads and indicates locations of petrol or service stations and border crossings as well as distances in km. The current post-soviet road numbering system is applied. Railway lines, ferry lines, local airports, sea ports and administrative boundaries are also shown, and places of interest are marked. There is no shading or contours to show the topography, but the map does distinguish forested areas, marches, and areas of sand. Latitude and longitude lines are drawn at 1° intervals. All place names are in Cyrillic alphabet. Map legend includes English. The map provides reliable, road tested information.
