**Sarah Johnstone, Greg Bloom : Ukraine (Lonely Planet Country Guide)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Ukraine (Lonely Planet Country Guide):

1 of 1 people found the following review helpful. InformativeBy jean hillOur fault for not looking at the date of publication as would have liked a more recent and up to date one. Book however in very good condition and arrived quickly.0 of 0 people found the following review helpful. Arrived on time, as advertised.By Joe G. Planet print a book just on Ukraine with some current and updated info for people traveling there. The only disappointment I had was that there is very little coverage of Eastern Ukraine, the Donbass Region to be exact. Granted most tourist types won't venture to areas like Lugansk. For those who do want to brave the adventure don't rely on this book for any info. east of Donetsk. Other than that I thought the book was pretty good. It's compact size makes it easier to carry compared to when Lonely Planet combined Ukraine, Russia, and Belarus in their previous printing.
