**Kartografija : Ukraine West 1:500,000 Regional Travel Map** before purchasing it in order to gage whether or not it would be worth my time, and all praised Ukraine West 1:500,000 Regional Travel Map:

This double-sided, Ukrainian-made regional map covers western part of the country up to Chmelnickiy at the eastern edge of the map. Includes places of interest. Based on very precise military cartography, the map is in Cyrillic, legend in Ukrainian and English.
