United Kingdom, London [Map Pack Bundle] (National Geographic Adventure Map):

12 of 12 people found the following review helpful. Helpful, but not for navigation. By Michael Catalano We used the map on a recent 12 day trip to the UK. It does include many interesting tourist attractions, and is easy to use. On the downside, many stretches of road are not labeled, leaving us to guess whether we were on A65 or A66, etc. It is not always detailed enough to get you from point A to point B, even if A and B are reasonably large towns. We did have to get a detailed map of the UK in order to confidently find our way around. 1 of 1 people found the following review helpful. The proof will come in Oct. By Mrs. W Seems like a great map. Like the fact that they mark castles and other historical sites. Will find out in Oct. when I travel to UK. 8 of 9 people found the following review helpful. Major Flaw By Traveling Man Good Map but it has a Major Flaw!!! The major flaw is there are no road numbers except for major A Roads. This is not a problem if you stay on major Motorways but major problem if you are exploring as the name of the map implies. "Adventure Travel Map".
