Kartografiya : Uzhgorod (Ukraine) 1:14,000 Street Map before purchasing it in order to gage whether or not it would be worth my time, and all praised Uzhgorod (Ukraine) 1:14,000 Street Map:

Detailed street plan of Uzhgorod covering nearly the whole city at scale 1:14,000. The city centre is enlarged at 1:7,000. The reverse side includes a touring map at 1:200,000 of the area between Uzhgorod and Mukachevo, place name index, plus some information on history and points of interest. This is a Ukrainian-made map and is, therefore, in Ukrainian.
