From EarBOOKS : Venezia: La citta e la musica (Venice: City of Music, Book 4-CD set) before purchasing it in order to gage whether or not it would be worth my time, and all praised Venezia: La citta e la musica (Venice: City of Music, Book 4-CD set):

Venezia: La citta e la musica - Venice: City of Music takes you through the city of lagoons with breathtaking pictures showing the many different aspects of this town: Romantic and modern, quiet and lively, the obvious and the secret. A journey through Venetian palaces, churches, canals and gardens, direct into the peoples heart, this tri-lingual global edition is a must-have collectible for Venetian lovers and tourists. The music selection reflects Venice's significance as one of the most important centers of occidental music and of opera since the Baroque period.

About the AuthorVienna-born Gunter Gruner discovered his love of photography as early as the age of ten. He published his first photographic works and picture presentations in 1982, following which he was nominated for Austria's state prize for photography. He won the international slide-show festival, El Mundo. His photos have formed the bases for a dance theatre project, music combined with images, publications in travel magazines, multimedia productions, and three illustrated books by the author. He has traveled the whole world and has presented his photos in a variety of adventure slideshows with subtle humor and artistic creativity.
