**Dorota Wasik, Emma Roper-Evans : Visible Cities Krakow (Visible Cities Guidebook series)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Visible Cities Krakow (Visible Cities Guidebook series):

Thoroughly researched and entertainingly written, this guide uncovers the countless treasures of art and architecture

that have remained intact—in spite of the city's tumultuous history—for well over 10 centuries. Highlighting the city's abundance of music and theater festivals and its café and cuisine culture, this guide provides insider tips and practical information on how to uncover the city's secrets and wonders. The guide's five short city walks and three lengthier excursions as well as its chapters on museums and galleries, music and film, food and restaurants, hotels and accommodations reveal a welcoming and exuberant city.

"Useful . . . practical." -- The Mercury May, 2003
