before purchasing it in order to gage whether or not it would be worth my time, and all praised Vitosha 1:25,000 Lozen Mountain 1:40 000 (Bulgaria) Hiking Map, GPS-compatible DOMINO:

Vitosha 1:25,000 Lozen Mountain 1:40 000 (Bulgaria) Hiking Map, GPS-compatible DOMINO Vitosha is a mountain massif on the outskirts of Sofia with the highest point at 2290 m. Vitosha is one of the symbols of Sofia's outdoor life and the closest site for hiking, alpinism and skiing. This is a double-sided, contoured topographic map of the Vitosha massif at 1:25,000 and Lozen Mountain at 1:40,000. It shows hiking trails, chalets and shelters, distances between villages and the tourist centres Golden Bridges and Aleko. The map includes information about the history and physical and geographical characteristics (geographical location, relief and shading; geological development and climate, water and soil, vegetation and fauna) and how to get to Vitosha (lifts, buses, route lines, train).
