content and based on my experience with other travel books (mostly Rick Steves and Lonely Planet) this is a great book, full of practical detail and easy to follow. The description of the various parks are very specific and allows the reader to make choices based on preferences: culture, nature etc. It has phone numbers and email addresses for all the hotels, B&Bs and hostels in the parks and gives the location and proximity to the nearest big city. Looking forward to my trip.
