Restaurant section is particularly bad--all of the places that appealed to me turned out to be shut down already.3 of 3 people found the following review helpful. For the globetrotting hipster and wannabesBy Tiffany B BrownTrue to it's brand, this Wallpaper* City Guide

featured some of the Barcelona's best things to see and do. A big, honking drawback: the map is small and as a result is utterly useless. But the guide's other content is worth it. I also loved the section for notes (with matte-finished paper for easy writing) and sketches. 2 of 3 people found the following review helpful. Too General-Pretentious By TravellingI was not happy with this guide, it was too clever for it's own good. There was not enough detailed, practical information....isn't that why one buys a guide? There were interesting points discussed, if the basics had been there I would have rated it higher. I liked the size, that's it.
