**Editors of Wallpaper Magazine :** Wallpaper\* City Guide Riga (Wallpaper City Guides) before purchasing it in order to gage whether or not it would be worth my time, and all praised Wallpaper\* City Guide Riga (Wallpaper City Guides):

Pretty Useless as a Travel Guide, Though I'm Not Sure That's What the Point of it is!By James N SimpsonI grabbed one of these along with some other books to help plan my trip and take with me on a backpacking trip which includes Latvia. This book is completely useless for planning as it provides next to no information. What this book basically is is a lot of artistic photographs of the inside of hotel rooms, cafes,

bowling alleys and a few other places. There's also some outside shots of these and other buildings, granted a couple of things you might actually stop and photograph yourself if walking by. There's a bit of information on each but with much of the text you'll be thinking, who cares about that. I really don't know what the point of the Wallpaper City Guide is, is it supposed to be an artist brochure type thing or a travel guide. As a travel guide to Riga, it's pathetic, has a very basic colour map on the back page where they haven't even bothered to write the names of anything other than the major streets in, you know there's streets there as there are white rectangle representing them but not much help if your looking for somewhere. Instead get the books Estonia Latvia Lithuania (Lonely Planet) for information, and Travellers Latvia (Travellers - Thomas Cook) for photos and a bit of information.

Wallpaper\* City Guides are a ruthlessly-researched, design-conscious guide, for the discerning traveller who wants to come away with a true taste of the best a city has to offer.
