treasure!By Jordan DavisThis is a small book, but it is very informative and useful. To some extent it can be useful to those people who wants to visit England Yorkshire. In addition to the to the main text, the book contains topographic maps. I think that this book is a historical rarity. The publication created in accessible and understandable language and if you are interested in the history of Britain, this book will be useful to you. I am very pleased that once it was acquired. Thank you!

'The air is pure, healthful and bracing, the pace of life moves not too swiftly. In this wide and various district there is ample time to 'stand and stare'. No matter what the traveller or holiday-maker requires, here is God's plenty'. From the introduction.Published in an age when hotels boasted of the luxury of both hot and cold running water, the Ward Lock 'Red' Guides offer a delightfully nostalgic view of the experience of travelling in Britain during the post war years.Stretching from Wharfedale in the south to Teesdale in the North this guide is packed with historical information on every castle, abbey, church, park, stately home and ruin in between. With suggested excursions, walks and leisure activities it offers a unique window into a by-gone age. With wonderfully quaint details on what appealed to the holidaymaker at the time, the 'Red' Guides are perfect gifts for anyone with connections to this much loved corner of the British Isles.The first selection of eight titles includes: London, Edinburgh, Oxford, Cambridge, Bath, The Lake District and North Cornwall.Each title has a newly-written introduction from a locally-known author.
