James F. Edwards : Waterside Walks in Cheshire before purchasing it in order to gauge whether or not it would be worth my time, and all praised Waterside Walks in Cheshire:

Walking by the water always add interest, as from birds and wildlife to boats and anglers, there is always something to look at. Cheshire is blessed with many wonderful waterways to explore. There are the great rivers Weaver and Dee; towpaths by canals such as Bridgewater, Macclesfield, the Shropshire Union and Trent and Mersey; and lakes such as Redesmere and Lymm Dam. .The 20 circular routes in this book take the walker along the banks of these waterways

and through some of the most beautiful scenery in Cheshire. Each walk includes details on how to get there, parking, a numbered route map and recommended nearby pubs and cafes. There is also a Places of Interest section for each walk.
