Alice Stevenson is an artist and a Londoner who neither drives, runs nor cycles. Instead Alice walks navigating the

city's parks, pavements and paths daily. In this, her first book, she is a unique guide with a unique eye. *Ways to Walk* is a revelation; beautifully illustrated it includes walks above and below ground, on paths and waterways, to beauty spots and curious corners of a multi-layered city.

Over the past few years, she has been, simply, walking London. Walking mindfully or adventurously, gleefully or miserably, discovering secret routes, special views and gratifying ways to link up the city all of which she now shares in a brilliantly personal, beautifully illustrated book." - FabricFrom the Inside FlapA beautiful book revealing London's multiple layers and different moodsExcerpt. © Reprinted by permission.
