From Giunti Gruppo Editoriale : Weekend in Milan (Weekend in Guides) before purchasing it in order to gage

whether or not it would be worth my time, and all praised Weekend in Milan (Weekend in Guides):

A series dedicated to the most desirable cities in Italy, to visit for a long weekend or more. Each book features four specially chosen itineraries accompanied by maps, guiding visitors to a host of unforgettable places both cultural and commercial, including museums, galleries, monuments, hotels, BBs, restaurants, cafes, and more. Milan, in Italy's northern Lombardy region, is noted for its urban style, but it's not just about fashion, there's beautiful art, architecture, and cuisine as well. Milan is Italy's business capital, as it was the Western Roman Empire's capital centuries ago. It is home to Da Vinci's Last Supper fresco; the Duomo - the third largest church in Christendom; Caravaggio paintings; La Scala; ...not to mention eating, drinking, shopping, and football!
