Dirk Hilbers : Western Andalucia: I: From Huelva to Malaga before purchasing it in order to gage whether or not it would be worth my time, and all praised Western Andalucia: I: From Huelva to Malaga:

This new title in the Crossbill Guides Series is one of two volumes covering the autonomous region of Andalucia in Spain. This title covers the western provinces. Like all other Crossbill Guide, this title answers two questions: what makes this area so special, and how you can see this for yourself. This book describes the flora and fauna, landscape and traditional land use of this region, plus 18 detailed routes and 28 sites with concrete indications on where and how to find the birds, wildlife and flora.

About the Author Dirk Hilbers (The Netherlands, 1976), biologist, is the founder of the Crossbill Guides Foundation and travels Europe to write Crossbill Guides about the continent's most beautiful natural areas. When not in the field, Dirk Hilbers works as a lecturer in the field of science communication and environmental ethics.
