Pomegranate, Gwyn Headley : What Happened Here? London Knowledge Cards Deck before purchasing it in order to gauge whether or not it would be worth my time, and all praised What Happened Here? London Knowledge Cards Deck:

London has accumulated millions of raucous and touching, scandalous and ennobling stories in its two thousand years. Some of those episodes were of more lasting resonance than others, and the concise essays in this deck of cards deal with events that have both prominent and obscure places in history. One side of each card features part of a London map, with a pointer to the location where a memorable event took place. The card's other side yields an eclectic charivari of well- and little-known facts about the event's circumstances, denouement, and historic effects. There's an additional pleasure to be found in these cards. Lay them out in four rows of twelve, and you have an elderly map of London. If you don't know the city now, you will by the time you're done! By Gwyn Headley, map by R. Creighton
