way more than a travel book. It's a detailed map of all things Italian. Not only do you receive very useful tips about the culture, but you also receive detailed information on the towns, regions, hotels, restaurants, and valuable tips on planning your trip. So it's not only where to go, what to do, what the culture is like, etc, but it's brings in the added element of movie trivia. It is infused with wonderful stories. Put of these elements together, along with a writing style that is fun, engaging and warm and you have MAGIC. A great combination of facts, information, tips, pictures and incredible stories with the added bonus of film. Love it.0 of 0 people found the following review helpful. Don't leave for Italy without this awesome guide!!By Patty KenneyRomina Arena has one more peg to add to her already long list of accomplishments in musical pop opera voice and composition. This guide to travel in the land of love, with the food of love and walking where prolific movie treasures have been filmed is truly second to none. It is not only informative but very chic and fun. Only an Italian can help you discover the jewels in this Mediterrean peninsula like you couldn't do alone. There are chapters focusing on Milan, Lake Como a fab place George Clooney clearly gives a thumbs up too, as well as Rome, Naples and her own beloved Sicily. There are details in every chapter listing famous films, travel tips, restaurant guides which only an insider would know. Like where to find the best gelato in Rome or facts like the Vatican containing its own post office and pharmacy within its tall walls as an independent state. Romina also shares her hotel picks based on privileged knowledge. Yes... Even recipes from movies like Eat, Pray Love for Pizza Margherita. She describes Palermo as a child born under the Tuscan Sun. Stand back Fodor's because this is a rock star version of how to enjoy Italy through the eyes and heart of an acclaimed, authentic girl whose heart is drenched in all things Mediterranean. The value far exceeds the cost of this guide for me.0 of 0 people found the following review helpful. Romina Arena is a fabulous singer and now a very entertaining author. A must read...Loved it...By DottieWhat can I say, Romina Arena is not only a fabulous award-winning Italian recording artist, but now she is an author! Loved this book and it is a must read especially if you are planning on visiting Italy. Even if you are not visiting Italy this year, it is a fun to read all about the famous movies. This book is a great reference to all of the sights in Italy and where they filmed many movies. Picture this, Italy..you are in Rome and have no clue as to where to go for some dinner or get a hotel room. Then you remember that you have this travel book and Romina gives you tips on where to eat and stay, as well as stories to go with the places in Rome. I really enjoyed this book and the many delightful stories that are within it's pages. I would recommend this book for anyone that loves to travel, in love with the movies, and loves a fun read with tips, information and you know it is authentic. Thank you Romina..keep writing and singing...

An enchanting exploration of Italy and film, led by international popera star Romina Arena!

"If you are looking for a great visitor guide that will provide a wide array of tips, information, and travel details then I highly suggest you read *Where Did They Film That? Italy*." ?Michelle Tan, San Francisco Book "Filled with trivia, recipes, cultural experiences, and other unique touches, it is a read that Italophiles and movie-lovers alike are sure to enjoy." ?Andiamo!"For those of us who fell in love with Italy by watching movies, this guide tells us how we can see for ourselves the locations that originally enchanted us while introducing us to new 'must-sees.'" ?Adrienne Antink, American Reference Books Annual"A new kind of travel guide that brings travelers not only love of movies but better, charming, joyful travel experiences in Italy." ?La Nostra Voce"Any with a special interest in Italian film production or settings will find it enlightening and specific. Those who plan on travel to Italy who have this in mind will also delight in the blend of cultural insights, discussions of famous film locations, cuisine, and shooting choices to be specific and well-blended with color photos throughout and the practicalities of travel in Italy. The resulting blend of travelogue for destination-oriented readers and insights on Italian film settings will delight those who want a special and different view of Italy's scenes." ?Midwest Book About the Author Celebrated as "the Queen of Popera," Romina Arena is an award-winning Italian recording artist who has performed before President Bill Clinton, Pope John Paul II, and many other world figures. Arena has sold over four million records worldwide and has received many major honors, including a Global Citizenship Award from the United Nations in recognition of her humanitarian support for the children of Haiti. "Where Did They Film That?: Italy" is her first book.
