**Lorraine d'Entremont Rawls with J. Anne Lazarus : Wild Provence:Savor the Lives and Flavors of France's Cowboys of the Camargue** before purchasing it in order to gage whether or not it would be worth my time, and all praised Wild Provence:Savor the Lives and Flavors of France's Cowboys of the Camargue:

3 of 4 people found the following review helpful. Amazing view of the Camargue and the Gypsy Culture!By venita vargaLorraine's very personal and heartfelt experience in the Camargue and Saintes Maries de la Mer is very up-

lifting! It is the ONLY work in English that I know of and is expertly researched and documented. I lived in the area from 1970 to 1979 and had already visited in 1968. Familiar with works in French (and "Provencale"); this delightful account opens up the area to the English-speaking only world of interested people. The horses are amazing and I have ridden them on several occasions.... Attention! They LOVE to roll in the water, even with a rider in the saddle! Also, the Gypsy culture includes "les Gitanes" from around the world during their festival of St. Sarah, May 23,24,25,26; feasting, dancing and the ritual of taking her icon down to the sea and back again... it is a very emotionally charged event that I have witnessed and attended on two occasions in the 70's. Thank you for the recipes also! I made the daube du gardien; for my 14 juillet celebration this year!!

You know American cowboys by heart: the land, the clothes, the work, and even the food. But sweep across the Atlantic into Provence and you discover an ancient place where cowboys work among pink flamingos, a broad marsh where white horses dance with black bulls, where the air is pervaded by sea salt and lavender. Here the earthy, rustic food reflects more than the land and the sea, it mirrors a way of life. This lifestyle book - with 39 elegant pages of black and white photographs - paints the landscape, explores the history and introduces the cowboys, their horses and bulls; and then zooms in until you find yourself sitting at the table to experience the food.

"Lorraine Rawl's groundbreaking work documenting the gardians and the Camargue brings to the attention of the American public a ranching culture little know in this country, and illustrates yet again the parallels between people who make their living raising horses and cattle around the world." -- Charlie Seemann, Director of the Western Folklife Center, Elko, NV  
From the Publisher A Gorgeous Book...39 pages of elegantly set black white photos. The perfect gift for anyone who loves horses, cowboys or the magic of Provence.
