George Borrow : Wild Wales: It's People, Language and Scenery before purchasing it in order to gage whether or not it would be worth my time, and all praised Wild Wales: It's People, Language and Scenery:

0 of 0 people found the following review helpful. Hiking Through Google Earth By Alan Sheryl Watkins Excellent 1860's travelogue of Wales. I've found that many of the places mentioned can still be seen on Google Earth. The single lane roads roads now are now asphalt, but the rain drainage still moves across them from the side of the hill, and in

some places a brook shouldered in grass follows the "lane", just as in the book.0 of 0 people found the following review helpful. All of WalesBy Cecile L. SchubertAh to be in Wales with Mr. Borrow. I surely wouldn't have missed an iota of the country or the people ... wonderful. Having to read it in small increments, since r. Borrow gives 'infinite detail' to not only the countryside itself but the conversations he has along the way.0 of 0 people found the following review helpful. Wonderful!By CustomerTruly wonderful travelogue.
