before purchasing it in order to gage whether or not it would be worth my time, and all praised Yekaterinburg: More Than 100 Full Colour Pictures (Text in Russian/English/German/French):

Yekaterinburg. The center of the Urals agglomeration of cities. Founded as a city of mining industry, Yekaterinburg has been and is the biggest industrial center of the country. It is a city of science and culture. The last years, due to impetuous development international business in the Urals, could not but reflect on the modern appearance of Yekaterinburg, on all the aspects of its life.
